EDUCATION

Army Institute of Technology

Pune, Maharashtra

Bachelor of Engineering in Information Technology

Aug 2024 – May 2028

Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Operating Systems, Computer Networks, Database Management Systems

PROJECTS

AIT Website | *Figma*

December 2024

- Redesigned the AIT website for a competition called Design Hack in Army Institute of Technology.
- Focused on an intuitive, scalable design to enhance user engagement.
- Implemented modern design principles (accessibility, whitespace, hierarchy) to enhance visual clarity and usability.

My Web | *HTML, CSS, JavaScript, React*

October 2024

- Built a pet adoption platform using React with responsive design and component-based architecture.

Mindloom | *React, Tailwind CSS, Node.js, Express.js, MongoDB*

September 2025

- Developed a full-stack mental wellness application using React, Node.js, Express.js, and MongoDB.
- Designed RESTful APIs for mood tracking, journaling, and user data management.
- Focused on scalability, reliability, and user-centric application design.

Portfolio | *HTML, CSS, JavaScript, React*

October 2025

- Developed a responsive personal portfolio website using React to showcase projects and skills.
